Informix 12.10 Edition Name Changes

Version 11.70 Edition Name	Version 12.10 Edition Name
Informix Choice	No longer available
Informix Developer	Informix Developer
Informix Innovator-C	Informix Innovator-C
Informix Express	Informix Express
Informix Growth	Informix Workgroup
Informix Growth Warehouse	Informix Advanced Workgroup
Informix Ultimate	Informix Enterprise
Informix Ultimate Hypervisor	Informix Enterprise Hypervisor
Informix Ultimate Warehouse	Informix Advanced Enterprise

Informix 12.10 Reduction In Packaging

- Down from 9 to 8 Editions
 - Developer Edition
 - Innovator-C
 - Express Edition
 - Workgroup Edition
 - Advanced Workgroup Edition
 - Enterprise Edition
 - Enterprise Hypervisor Edition
 - Advanced Enterprise Edition
- Choice Edition is being eliminated
- Competitors
 - SQL Server has 7 editions
 - Oracle has a mix of 27 parts

Other Product Line Changes:

- Withdraw Informix Connect from PPA and provide non-warranted download
- Withdraw Informix JDBC from PPA (migrate to AUSI on CSDK)
- Include Client SDK and JDBC as supported products in Informix database bundles

Informix 12.10 Bundles

- SPSS and Cognos
 - Informix 12.10 includes bundling SPSS Modeler V15.0 FP 1 Limited
 - Informix 12.10 includes bundling Cognos BI 10.2 licenses
 - Strengthens BI + Predictive Analytics value proposition
 - SPSS will be included in any new Informix Ultimate Warehouse Edition
 - Cognos BI will be included for Growth Warehouse and Ultimate Warehouse editions

- IBM Mobile DB & IBM Mobile Sync
 - Informix 12.10 includes bundling IBM Mobile Database 7.0.1
 - Informix 12.10 includes bundling IBM Mobile Database Sync 1.0
 - Strengthens Mobile value proposition
 - Mobile DB and Sync will be included in all for fee Informix Editions
 - Help propagate development of mobile applications on Informix and for use with mobile analytics and BI applications

Easier to Understand and Sell

- From 9 to 8 editions – details on mapping, pricing, and revenue impact in backup
- Automatic entitlement migrations. Hassle free version migrations

Departmental Market

Advanced Workgroup Edition

- Fully functional offering for small OLTP and analytic deployments
- Primarily used in department environments within large enterprises. Also available for SMB/MM deployments
- Limited by cores
- Supports Query Accelerator deployments

Workgroup Edition

- Capabilities for an entry level offering
- Targeting single server requirements with less intense workloads in both the OLTP and analytic space
- Limited by cores and memory
- No support for Warehouse Acceleration deployments

Enterprise Market

Advanced Enterprise Edition

- For Enterprise Class OLTP and/or analytic deployments
- Targeting full enterprise / full data center requirements
- Fully functional
- No memory, socket or core limitations
- Supports Query Acceleration deployments

Enterprise Edition

- Capabilities for an entry level offering.
- Targeting single server, enterprise requirements with more intense workloads in both the OLTP and analytic space
- No memory, socket or core limits
- No support for Query Acceleration deployments

Express Edition and Innovator-C

Developer Edition

Summary

- Rename Growth Edition to Workgroup Edition
- Rename Growth Warehouse Edition to Advanced Workgroup Edition
- Rename Informix Ultimate Edition to Informix Enterprise Edition
- Rename Ultimate Warehouse Edition to Advanced Enterprise Edition
- 1 FUSSI will map to 2 Authorized User Single Install (AUSI) licenses
- High Availability licensing - no changes, secondaries are still free, if no additional work is done on the secondary, metric can be different on primary and secondary
- Withdraw Informix JDBC from PPA (migrate to AUSI on CSDK)
- Include Client SDK and JDBC as supported products in Informix database bundles
 - CSDK is available in development and production.
 - There is no charge for CSDK, or for use of DBACCESS in production.
 - There is no separate charge for CSDK S&S, as long as the customer has support on the server it is being used with.
